Amdt. dated 2/5/2004
Reply to the Office Action of 10/31/2003

Docket No. 97-GR2-144

REMARKS

Applicant has studied the Office Action dated October 31, 2003 and has made amendments to the claims. It is submitted that the application, as amended, is in condition for allowance. By virtue of the previous amendment filed on February 2, 2004, Claims 28, 30, 41, and 45 have been amended. Claims 28-46 remain pending. By virtue of this Second Supplemental Amendment, the Specification has been amended to add section headings. Reconsideration and allowance of the pending claims in view of the above amendments and the following remarks are respectfully requested.

REMARKS DIRECTED TO CLAIM AMENDMENTS MADE IN THE PREVIOUS AMENDMENT FILED ON FEBRUARY 2, 2004

The Examiner rejected Claims 28-46 under 35 USC 112, second paragraph, as being indefinite because Claim 28 needed to clearly identify "annular interface area", and because Claims 30, 41, and 45, needed to clearly and with proper antecedent basis identify "a first opening in the die carrier".

Applicant amended Claims 28, 30, 41, and 45, in response to Examiner's rejections, to more clearly and distinctly recite the presently claimed invention. These amendments were made only to correct minor clarifications of claim language and not in any way for patentability

of, or to further limit, the claims in view of any prior art. Support for the amended language can be found in the original patent application as filed. No new matter was added by the amendment to the claims.

Accordingly, in view of the amendments and discussion above, Applicant believes that the rejection of the Claims 28-46 under 35 USC 112, second paragraph, has been overcome. Applicant requests the Examiner withdraw the rejection to the claims.

REMARKS DIRECTED TO THE PRESENT AMENDMENT OF THE SPECIFICATION

Applicant has amended the specification only to add section headings as per Examiner's requests both in section 2, page 2, of the Office Action dated October 31, 2004, and in a telephone call today with the Examiner. These amendments were not made in any way for patentability of the claims in view of any prior art. No new matter was added by any of the amendments.

In view of the foregoing, it is respectfully submitted that the application and the claims are in condition for allowance. Reexamination and reconsideration of the application, as amended, are requested.
